COLLEGE**

**Student Handbook
2021-2022**

MISSION

James Madison College provides a liberal education in public affairs for undergraduates. This means, among other things, that our primary activity as a faculty and staff is undergraduate teaching. We are dedicated to the highest standards of excellence, both for our students and for ourselves. Our curriculum and individual courses are multi-disciplinary, cultivating skills of rigorous thought, lucid prose writing, and articulate speech. We learn in a residential setting that nurtures a collegium of scholars among students, faculty and staff and draw on the resources of the wider University to enrich

JMC COMMUNITY NORMS & VALUES

As a residential college designed to cultivate learning, belonging, and human relationships, we promote a community based on the practice of these core values:

- ***Integrity***: building trust, honesty, mutual respect, reliability, and ethical behavior
- ***Diversity***: ensuring compassion, empathy, and the value of (respect for) difference
- ***Equity and Justice***: creating an environment in which equity and fairness are prioritized; promoting and valuing the wellness of all persons
- ***Accountability***: being willing to reflect upon as well as take responsibility for one's actions and behaviors in ways that are guided by community norms and values
- ***Shared governance***: collectively enhancing the inclusion of all community members in transparent decision making and knowledge related to the college
- ***Pursuit of knowledge***: valuing intellectual growth and acquisition of knowledge

STATEMENT OF LEARNING PRINCIPLES

As Madisonians, we affirm the necessity of compassion, conscientiousness, and curiosity in our community. We acknowledge our academic and moral responsibility to always seek to learn from one another, approaching our scholarly endeavors with respect and humility. We understand that this process can be uncomfortable, and that it often requires challenging closely held beliefs. Nevertheless, we strive to always participate in discussions in good faith, and to build a community conducive to the intellectual growth of all.

LIFE IN THE CLASSROOM

CURRICULAR REQUIREMENTS

Michigan State University and James Madison College are on the semester calendar. The James Madison College overall curriculum is made up of University requirements, JMC requirements, and major requirements. Most students complete about 30 credits per year. About half of these credits are taken in Madison classes taught by Madison faculty. The remainder of the course work comes from a variety of other colleges and departments on campus.

UNIVERSITY REQUIREMENTS

1. Writing and Integrative Studies

Like other students at MSU, a part of the first and second year is spent fulfilling the University's Integrative Studies requirements. These requirements represent four areas: a) Writing; b) Natural Science; c) Arts and Humanities; and d) Social Science and Tier I Writing requirements. The Integrative Studies requirements in General Science and in the Arts & Humanities are met by completing approved courses with a (D) for domestic and one denoted with an (I) for International. One of the science courses must have a concurrent lab. MSU has a wide selection of courses that will meet these requirements. In addition to these four areas, students must complete a Tier II Writing requirement. Madison students fulfill the Tier II writing requirement in the normal process of completing their majors (i.e., students will not need to take any additional classes to meet this requirement).

2. Math Requirement

Successful completion of this requirement can be accomplished in one of two ways:

A. A placement examination score of 19 or higher in a proctored setting at NSO, which demonstrates competency equivalent to the following: two years of high school algebra; one year of high school geometry; and one year of probability, trigonometry, or calculus.

B. Completion at MSU or transfer equivalent of one of the following options:

- Two of the following: MTH 101, MTH 102 and MTH 103 (or MTH 103 waiver)
- MTH 103 & MTH 114
- MTH 103 (or MTH 103 waiver) AND one of the following: MTH 124, MTH 132, MTH 152H, STT 200 or STT 201

JAMES MADISON COLLEGE REQUIREMENTS

The First Year Program

The first year at Madison features our Identity and Community and Introduction to Public Affairs courses. These courses fulfill the University's Tier I writing and integrative social science requirements.

MC 111: Identity and Community: An Approach to Writing introduces students to issues of identity and community in American and/or international contexts. Among the questions individual sections of MC 111 might address are: What factors shape identity? How does one define community and what rights and responsibilities accompany membership in various communities? How do notions of identity and community differ across cultures? How have writers from a variety of communities articulated their identities in literature? How do imaginative literatures, histories, and other cultural texts (like film) represent individual collective, civic, and national identities?

Writing assignments in MC 111 typically include: personal essays, narratives, or analytical autobiographies; analytical or interpretive essays requiring close textual analysis; synthesis essays in which several texts are analyzed in relation to each other; and/or critiques of primary and secondary texts. The emphasis is on (1) developing an effective writing process by drafting, revising, critiquing, and editing essays as part of a community of writers; (2) honing the reading, writing, critical thinking and discussion skills necessary to participate meaningfully in an intellectual community.

LIFE IN THE CLASSROOM

MC 201-202: Introduction to the Study of Public Affairs

The first year of Madison also features our introductory course in the social sciences (MC 201-202: Introduction to the Study of Public Affairs), the College's equivalent of the University's Integrative Studies in Social Science requirement. The goals of the course are (1) to introduce students to the social sciences and to several enduring themes and issues in public affairs in the context of a broad liberal arts education, and (2) to provide a foundation for upper division study in the College. By "foundation," we mean substantive knowledge, analytical thinking, research and writing skills, and experience with multidisciplinary study.

MC 201-202 is a two-semester sequence focusing on the social sciences. During the first semester (MC 201), students explore key features of the United States policy and society in historical and comparative perspective. The course introduces students to some of the political, economic, and social dimensions of American civilization, and how they shape our approach to public affairs. More specifically, the course considers the enduring tensions in the United States being a liberal democratic political community, a mixed capitalist economy, and a diverse society. Readings include a range of perspectives from history, economics, political science, political theory and sociology. Written assignments may include analytical or comparative essays, short research papers, and critical reviews. Students are encouraged to link their explorations of identity and community in MC 111 with discussion of the American community and public life in MC 201.

MC 201 includes occasional films, videos, panel discussions, special co-curricular events, and faculty or student debates. MC 201 meets weekly for group lectures or common experiences and then again for small discussions. The seminars provide opportunities for students to discuss the readings and lectures, ask questions, and engage in conversations. Expectations are high for broad student participation.

During the second semester (MC 202), students focus on selected issues in American and international public affairs, particularly as these are reflected in contemporary public debates. For example, one major theme in MC 202 has been nationalism and identity, which can include questions such as: Why are there growing national and ethnic conflicts in a changing post-war world? What are the relationships among membership, identity, nationalism, and ethnic and national conflicts? In MC 202, students' writing assignments may include preparing analytical essays, position papers and memoranda, and sustained research papers. Oral tasks may include presentations, debates, and simulations. Students are encouraged to expand their research skills, sharpen their judgment, and speak their views publicly.

Minimum MC Credit Requirements: 51/41 credits

Students must complete a minimum of 51 credits in Madison (MC) courses. However, students transferring to Madison from another MSU major or from another college or university must complete a minimum of 41 credits. Those students enrolled in a teaching certification program and fulfilling a student teaching requirement must also complete 41 MC credits, as a minimum.

The Economics Requirement: 6/7 credits

All Madison students take microeconomics and macroeconomics (EC 201 or 251H and EC 202 or 252H) to provide background knowledge for their upper-division Madison courses. The economics requirement is an essential part of a liberal arts education that focuses on public affairs.

The Language Requirement: up to 20 credits

To broaden the cultural, humanities, and analytical competencies of students and prepare them to become global citizens, James Madison College requires that all students attain second year university level competency in a foreign language. Students may do this by taking courses in a foreign language for two years at MSU or at another university. Students may be able to waive some or all of the university level foreign language course depending on their scores on the MSU placement or Advanced Placement test. *Please note that first semester-level Russian, Japanese, Chinese, Arabic and African languages may be taken Credit/No Credit. Students must decide in the first week of classes whether they will take a course Credit/No Credit and must go to the Registrar's Office to request the Credit/No Credit status. Students are encouraged to meet with their advisor to discuss language options prior making a selection.*

LIFE IN THE CLASSROOM

The Field Experience: variable credits

A Madison education focuses on the application of knowledge and analysis to public issues, concerns and events, as well as on theoretical approaches to social science. As a result, Madison students learn to think critically and analytically about public affairs, to evaluate policy options, and to understand decision-making. Madison believes that a liberal education is incomplete without a chance to test and apply these abilities in professional settings.

During either the junior or senior year, at least one semester is spent in an internship instead of in the classroom. The College believes that it is important that our students spend at least three months interning in an organization and a position that interests them and gives them a chance to apply what they have learned in the classroom to the policy world. Many of our graduates have developed excellent job contacts through the organizations in which they interned.

Field experience is a requirement for all Madison students. It consists of two courses taken concurrently- MC 400 (Variable credits, pass/no pass) and MC 401 (3 credits, pass/no pass). During the sophomore and junior years, students should explore the more than 600 placements on file in the Field Experience Office database. These placements include assignments with a variety of state and federal agencies, city governments, legislative offices, public interest groups, legal aid societies, courts, social service agencies, businesses, newspapers, labor unions, and voluntary organizations. We have placements throughout the U.S. and abroad. The placements we approve aim to place Madison students in a decision-making role or close enough to it so that they may comment on it intelligently. This means that the work they do must be substantial and serious. With the Field Experience Coordinator approval, students may develop their own internship. Students must meet with the Field Experience Coordinator prior to beginning internship applications, preferably two full semesters prior to the semester of the internship.

Students may, with advisor approval, petition to substitute one of four options for MC400 and/or MC401: a senior honors thesis; prior professional or public affairs-related work experience relevant to the Madison program; a student teaching dual major - TE 407 (5 cr.) and TE 408 (5 cr.) - or a dual major practicum; or an approved education abroad program. Journalism majors must meet with the Assistant Dean. Students considering substitutions for the Field Experience or part-time experiences should remember that they need to complete a minimum of 51 MC credits, or 41 credits if they are transfer students (either internal or external) or if they will be doing the MSU Teacher Certification Program.

Major Requirements: 39-46 credits

Each of our four majors is built around a core of Madison classes that extend from the sophomore through senior years. This is supplemented by another group of related courses that will be mostly drawn from other majors in Madison or from other MSU departments. This mix of Madison and non-Madison classes is the centerpiece of the educational experience.

Madison's majors are designed to accommodate dual majors. Students can graduate in the normal amount of time even if they choose to pursue two of Madison's majors. It is best if this decision is made early in the sophomore year, but choosing this option even later is still manageable. Students are strongly recommended to consult their advisor or the Assistant Dean as they make this decision.

It is not unusual for students to be uncertain as to the major they wish to study. Students should keep in mind that the choice is not etched in stone; it is possible to change the major declaration or to take more time to decide without falling behind. Choosing a major is a process. Through the first year, students will want to get to know Madison faculty and fellow students; talk with their advisor; read carefully the sections on the majors in this handbook, and attend the "Meet the Majors" meetings held by each major during spring semester your first year. Each of our majors offers a liberal arts education and solid preparation for a wide range of opportunities after graduation.

Electives

Electives are courses that are chosen by the students to satisfy additional interests that they may have. Courses may be drawn from almost anywhere in the University. Students often use some of these electives to begin a second foreign language, take additional coursework in Madison, take courses in other MSU departments, or work on one of the many minors offered at MSU.

YEAR BY YEAR

FIRST YEAR

In their first year, students will take their Madison requirements: MC 111, MC 201, and MC 202. The other classes students take during the first year are drawn from outside Madison. Students with interest in pursuing additional majors outside of the College should also discuss the possible course implications with their advisor.

Toward the end of their first year in Madison, students are asked to indicate the major they plan to pursue. These are the four majors:

INTERNATIONAL RELATIONS
COMPARATIVE CULTURES AND POLITICS
POLITICAL THEORY AND CONSTITUTIONAL DEMOCRACY
SOCIAL RELATIONS AND POLICY

Before deciding, students will have the opportunity to attend “Meet the Majors” meetings to learn about each major, its requirements, its faculty, and possible careers.

SOPHOMORE YEAR

During the sophomore year, Madison classes will build upon the analytical, writing, and verbal skills that students started to develop during their first year. These classes will also expose students to the major theoretical approaches and policy issues and concerns of their major. Most students complete the college economics requirement as well as finish their University integrative studies in this year.

JUNIOR AND SENIOR YEAR

During the junior and senior years, students pursue advanced (300-400 level) coursework in their James Madison College major and fulfill the related area or disciplinary course requirements of their major. Students also complete the FIELD EXPERIENCE requirement. Finally, they can also look forward to taking a SENIOR SEMINAR in their major. Our Senior Seminars are intended to be capstone experiences - opportunities for students to pull together and reflect upon what they have learned in their Madison classes and to employ the skills they have mastered. These seminars are also research seminars, in which students will participate in creating and sharing knowledge. The seminars are small (about 15-20 students) and are focused on advanced topics of interest to faculty and students in the major.

Above is a recommended four year graduation plan. Students who wish to develop an alternative plan (3 year graduation) should consult with an advisor.

INTERNATIONAL RELATIONS

Madison's major in International Relations trains students to think imaginatively, and in depth, about the problems of world society and about the opportunities for solving them. By design, it is a sophisticated program: its graduates have gone on to careers in the foreign service, politics, international organizations, academics, law (including international law), public relations, lobbying, economic development work, intelligence gathering and analysis, the news media, and international business. It is also, of course, an excellent preparation for law school and for graduate study in international affairs or international business.

The outstanding features of the curriculum are its breadth and depth. It is organized around the following themes: international security and conflict resolution; international political economy; global governance; foreign policy of the United States and other countries; and comparative, regional and cultural studies.

The International Relations curriculum encourages students to think creatively about a variety of issues: What constitutes "national security"? What are the social consequences of modernization? What are the causes and likely consequences of ethno-nationalism? How does the U.S. arrive at foreign policy decisions? How is that different from how foreign policies are made in other countries and which is better? What is the impact of protectionist foreign trade policies? How do national, regional and international political, social, and economic actors interact in the transition to a post-Cold War global order? What is the impact of the U.N. and other international organizations? What effects do weapons and communications technologies have on world politics? By what means have national defense policies been implemented since the end of World War II? Some classes will use case studies in which students will be examining real or hypothetical foreign policy dilemmas and developing solutions to them. Others will evidence the importance of theories and models for comprehending and influencing world events.

Related Area Requirement

Students also complete the equivalent of one year of integrated college level coursework from one of 4 groups: History, Economics, Political Theory, or other related coursework (such as advanced foreign language) selected in consultation with their academic advisors (6-8 crs.):

Group 1: History

- HST 205A: The Ancient Mediterranean from 3000 BCE to 400 CE (4 cr.)
- HST 205B: Europe in the Middle Ages from 400 to 1500 (4 cr.)
- HST 206: Europe in the Modern Age (4 cr.)
- HST 325: History of U.S. Foreign Relations to 1900 (3 cr.)
- HST 326: History of U.S. Foreign Relations since 1900 (3 cr.)
- HST 337: Intellectual History of Modern Europe (17th, 18th, and early 19th century) (3 cr.)
- HST 338: Intellectual History of Modern Europe (1830 to Present) (3 cr.)
- HST 390: History of International Relations (3 cr.)

Group 2: Economics

- EC 302: Intermediate Macroeconomics (3 cr.)
- EC 306: Comparative Economic Systems (3 cr.)
- EC 405: Development of the American Economy (3 cr.)
- EC 406: Economic Analysis of the Soviet Union (3 cr.)
- EC 410: Principles of Economic Development (3 cr.)
- EC 411: Issues in Economic Development (3 cr.)
- EC 412: Economic Analysis of Latin America (3 cr.)
- EC 413: Economic Analysis of Asia (3 cr.)
- EC 414: Economic Analysis of Sub-Saharan Africa
- MC 340: Economic Growth (4 cr.)
- MC 341: Politics and Markets (4 cr.)

Group 3: Political Theory

- MC 270: Classical Republicanism (4 cr.)
- MC 271: Liberalism and Democracy (4 cr.)
- MC 370: Radical Challenges to Liberal Democracy (4 cr.)

Group 4:

Other related area coursework selected in consultation with and approved by a Madison advisor.

In addition to the above coursework, students are responsible for the following requirements: Integrative Studies, Math, Language, Economics, Field Experience and Electives.

TOTAL CREDITS TO GRADUATE: 120

Examples of International Relations Senior Seminars (MC 492)

Political Economy and New Capitalism - Capitalism and economic theory have been challenged as a result of recent economic and financial crises. Citizens of a number of countries, particularly in Latin America and in the euro zone, have replaced or considered replacing governments embracing capitalism with those promoting socialism. What are the limits of capitalism? What is the role of government in modern capitalist economies? Are the new challenges that have arisen minor or fundamental? This course aims to capture this debate, drawing on a variety of fields, cases, and sources. In addition to the United States, examples may include Brazil, Britain, China, Greece, India, Indonesia, Russia, and South Africa. In addition to the economic dimensions of crises, the political and social dimensions of crises will also be a focus of the course, especially in drawing comparisons to the Great Depression and other periods of economic crisis.

U.S. National Security: Strategy, Process, and Policy - This seminar will focus on the development and application of U.S. national security policy. It will consider the continuities and changes that have occurred based on the evolution of the United States' capabilities, interests, and position in a world that has changed dramatically over the last 200 years. We will examine the changes that have occurred since the end of the Cold War and after 9/11 in light of earlier patterns of behavior. We will also examine how America's national security institutional infrastructure has been adapted over time to meet new conceptions of threat. Throughout the course, we will focus on the interaction between the development of strategic visions, the development and execution of policy options, and the process of national security policy making.

Global Poverty and Inequality - This seminar explores the issue of global poverty and inequality, with a focus on the role of foreign aid and development assistance. What is poverty? What is inequality? What is the relationship between poverty and inequality? What are the sources of global poverty and inequality? Can foreign aid reduce poverty? What role do international organizations play in dealing with global poverty and inequality?

We begin with a critical analysis of the concepts of poverty and inequality as well as different theoretical approaches for explaining their causes. We examine the major debates that surround the effectiveness of foreign aid in alleviating poverty. We then focus on critically assessing the role of a variety of international actors, including major international organizations (U.N., World Bank, regional development banks) as well as bilateral donors (USAID), large NGOs and foundations (Save the Children, Bill & Melinda Gates Foundation), in addressing poverty around the globe. We also explore the impact of new donors, such as China, on the global aid regime.

Water, Energy & Commerce: Resource Scarcity, Sustainability & Environmental Impacts - This seminar will examine comparatively the experience of states undergoing rapid economic, political, social and environmental change since the collapse of the Soviet Union. It provides an interdisciplinary analysis of the progress made and challenges faced in post-socialist era Europe, Russia, and the Eurasian successor republics to the former Soviet Union with a focus on sustainable development. It will examine the philosophical debates underlying international trade and business trends and policy, economic development and reform efforts, and the evolution of political and economic institutions. It will also examine the feasibility of alternative policy strategies in a changing and increasingly interdependent global economy. An important focus will be on the comparative analysis of natural resource challenges and conflicts, particularly as they relate to the energy-water nexus in Eurasia.

INTERNATIONAL RELATIONS

This is a checklist for students in the International Relations major who began in IR Fall 2018 or after. Transfer students who are still taking courses at other institutions should choose classes that may be applied toward MSU's Integrative Studies requirements, such as MSU's math requirement, if necessary, or Madison's foreign language and economics requirements.

COMPARATIVE CULTURES AND POLITICS

Comparative Cultures and Politics (CCP) is a major that studies how culture and politics intersect in global public affairs. CCP's innovative interdisciplinary approach in the humanities and social sciences gives students the skills and competencies they need to address complex and critical global issues across academic and professional fields. The CCP major provides students with tools to better understand diverse cultural perspectives around the world, explore how culture shapes power relations, and how political and economic dynamics impact culture. The comparative and transnational focus encourages students to learn about other cultures and political systems, to reflect back on their own societies, and to discover how they want to position themselves as globally engaged citizens.

CCP's courses are anchored in contemporary issues relevant to global public affairs. Our courses examine such issues as racial and gender politics; media, power, and politics; nationalism, ethnicity, and ethnic conflict; literature, film, performance, and politics; globalization, international development, and community mobilization; human trafficking; global public health; and diaspora, migration, and displacement. The CCP major offers a sophomore sequence of courses introducing the study of culture and politics in comparative and transnational perspective, as well as electives in relevant subject areas and a capstone seminar. The major's related area requirement gives students the opportunity to gain expertise in areas or peoples outside of the United States and allows them to develop comparative and international perspectives valued by public and private employers. Knowledge gained in CCP is critical for understanding the impact of politics and policies on people's lives, for envisioning new possibilities for global interactions, and for developing practical responses to social injustice, inequality, and conflict.

CCP graduates go on to pursue careers in the U.S. government, the private sector, social and popular media, cultural organizations, and non-profit organizations. They also pursue a wide range of graduate and professional degrees, including law, education, non-profit administration, public policy, public health, communication, cultural studies, environmental studies, media studies, anthropology, social work, and business.

Requirements for a major in Comparative Cultures and Politics:

All of the following core courses (13 Credits):

MC 230: Cultures and Politics in Comparative Perspective
MC 231: Cultures and Politics in Transnational Perspective

TOTAL CREDITS TO GRADUATE: 120

Examples of Comparative Cultures and Politics Senior Seminars (MC 493)

Ethnic Conflict - Our focus will be one of the world's most urgent and dangerous problems -- ethnic conflict. Why is it that some multiethnic and multicultural societies and states manage to be free of violent conflict, while others have fallen victim to protracted conflict or intense, violent conflict? What are the political and cultural dynamics that produce conflict? When and how does ethnicity interplay with other identities and interests to cause conflict? How might ethnic conflicts be managed or resolved? We will examine theoretical and conceptual literature on ethnic conflict, and we will ground this theoretical study with exploration of empirical case studies. Possible cases include Bosnia, Kashmir, the Kurds, Northern Ireland, Rwanda, and/or Sri Lanka. Student research is an important part of this class, as your work will be integrated into the course through readings and presentations.

Health and Human Rights - The course is an overview of the intersection of health and human rights from an interdisciplinary perspective with an emphasis on vulnerable populations. We will look specifically at the precarious health conditions of the poor, women, minorities, prisoners, and displaced populations. Throughout the course, students will be introduced to several central human rights documents that deal with questions of health and well-being as well as a variety of scholarly work that illuminates controversies associated with the concept of "universal" rights. In addition to theoretical debates, students will be introduced to case studies that illuminate ethical issues associated with people's rights to health both domestically and internationally. Students will be asked to analyze a variety of emerging health-related real world issues and how they relate to questions of human rights, including: bioethics and human subjects research; structural violence leading to inequitable health outcomes that are gendered and racialized; the morality of detainment and enhanced interrogation; human trafficking of organs associated with technological advancement that allows for more organ transplantation; and the role of human rights to health in humanitarian crises. This course requires critical analysis of readings drawn from medical anthropology, medicine, public health, political science, history, sociology, journalism and media studies that collectively bring about an increased awareness of the depth and breadth of the intersection of health and human rights.

Television, Televisuality and Global Events - Television is inextricable from such global events as the Tiananmen Square protests of 1989, the fall of communism, the Gulf War, the wars in Bosnia, the Kosovo crisis, the war in Afghanistan, the Iraq war, the Arab Spring, to name but a few. We will grapple with key and competing perspectives on the complex role of television and televisuality in such global events (i.e. movements of protest and wars). Along the way, we will familiarize ourselves with critical work on the politics of televisual representation, on geographies of visibility in American television news, on television and memory, and on how we are implicated as viewers in global events. Key questions that will animate our inquiry are: how has television participated in producing and representing historical change and crisis? What is the relationship between television and war? How have changes in televisual formats and broadcasting technology affected the coverage of world events, and what are some of the consequences of these changes on movements of protest and on wars? What is the relationship between television and other forms of media? How has television, televisuality and mediatization more generally impacted our ways of seeing the world, our lived experience, and our memory (both social and personal memory)?

POLITICAL THEORY AND CONSTITUTIONAL DEMOCRACY

James Madison College's major in Political Theory and Constitutional Democracy, as its unusual name suggests, probes the major competing principles that have animated political communities and how we have attempted to translate these into practice. We raise complex fundamental questions as we try to sort out the values and principles that have been most important to us. What does it mean to flourish as a human being? What are the rights and responsibilities of good citizens? What is the best way of life for society as a whole? Political Theory does not pretend to have the definitive answers to these questions. But we believe we can teach students how to think about these concepts and how to approach these questions in a productive and intellectually exciting way.

To achieve this, the Political Theory and Constitutional Democracy curriculum is both philosophical and historical. Course readings range from Plato and the classical poets to contemporary political theory, literature, and U.S. Supreme Court decisions. The introductory course sequence (MC 270-271) is not a conventional survey of political theory. It introduces students to a theoretical way of thinking about politics and morality at different times and places (for example, the ancient Greek city-state and the Florentine republic) which they can then use as a basis of comparison in analyzing the American experience. Other required "core" courses confront students with the most systematic justifications philosophers have offered for one or another conception of justice and also the most challenging, sometimes unorthodox objections to grand theories of justice. Finally, in senior seminars, students can critically explore a focused topic in depth in such a way that many of the themes and questions that have been raised by the curriculum may be viewed in a new light. In addition, a wide range of electives, including courses on technology, religion and politics, the Supreme Court and African-American political thought allow students to pursue more specialized interest relevant to the general concerns of the major.

In short, the Political Theory curriculum is coherent yet flexible. The required courses are carefully sequenced and built on one another. The small number of required courses in the junior and senior year, combined with the flexibility of other Political Theory requirements, enables upper-class students to use the curriculum as the basis for a program that integrates their interests inside and outside the College. After graduation, Political Theory majors have gone on directly to work in a wide variety of public and private sector jobs. Many Political Theory graduates go on to graduate or professional school in law, business, philosophy, and political science. From there, their paths have taken many different turns, for example, serving in the Michigan Legislature, as Director of the Consumer Financial Protection Bureau, as Budget Director of the State of Michigan, as Executive Director of the Michigan Democratic Party, and teaching at major universities and small liberal arts colleges.

These features of the PTC D program make it easy to pursue a dual major. Many students combine a PTC D major with a major in another Madison core or a major in a disciplinary department. In recent years, PTC D students have dual majored in biochemistry, criminal justice, economics, English, history, mathematics, philosophy, political science, physics, psychology, religion, secondary education, sociology, and theater.

One college-level math course (calculus or above).

Example: MTH 124, MTH 126, MTH 132, MTH 133, MTH 152H, MTH 153H (3-5 cr.)

(MTH may not be counted both as fulfilling the MSU MTH requirement and Methods requirement for PTCD)

One (1) of the Following Related Areas (12-16 credits):

Option 1: Humanities/Social Sciences

Students select four courses (12-16 credits) from one of the following disciplines or fields:

Anthropology, Philosophy, Economics, Political Economy (JMC), English, Political Science, Foreign Language, Social Relations and Policy (JMC), History, Sociology, International Relations (JMC)

At least two of the four courses must be at the 300 level or above. In the case of a related area in a Foreign Language, all four courses must be at the 300 level or above.

With the approval of the student's advisor, the following substitutions are permitted:

- (a) Four courses in a discipline other than one of those listed above (for example, related area in Criminal Justice or Journalism)
- (b) A coherent and unified multidisciplinary package of courses (for example, a related area in comparative literature consisting of a mix of courses from French and German [in translation]; a related area in the history of ideas which includes a mix of courses from History and Philosophy). In addition, appropriate courses offered in Madison College may be substituted for courses offered in one of the above disciplinary departments (for example, a related area in Philosophy may include PTCD courses; a related area in Political Science may include IR and/or PTCD courses; a related area in Sociology may include SRP courses; a related area in Economics may include PE courses)

Option 2: Political Culture

With the approval of their advisor, students select four (preferably advance) courses that focus on an historically significant polity in another time and place. At least one of these courses must be in the history of the polity. The others may be on any aspect of life of the polity (e.g., art, music, literature, religion, philosophy, economics, family and Social Relations and Policy, politics). Two may be in the study of the language of the polity (either as advanced work in the student's second language or as beginning work in a third language).

Typical examples of historical polities: ancient Egypt, ancient Israel, classical Greece, classical Rome, medieval Christendom, the medieval Islamic world, Renaissance Italy, Reformation Germany, Tudor and Elizabethan England, eighteenth- and nineteenth-century Prussia, Victorian Britain, the British Empire, the Austro-Hungarian Empire, Czarist Russia, the Soviet Union, the Weimar Republic, Nazi Germany, South Africa, and the polities of comparable epoch in the history of the peoples of India, China, Japan, Africa, and Latin America.

In fulfilling this requirement, students may use appropriate Madison courses (including independent studies, second senior seminars, and senior honors theses) where they are relevant.

Option 3: Dual Major

Students pursuing a second major (inside or outside the college) may, with approval of their advisor, use four courses from that major to fulfill the Related Area requirement.

In addition to the coursework outlined above, students are responsible for the following requirements: Integrative Studies, Math requirement, Language requirement, Economics requirement, Field Experience and Electives.

TOTAL CREDITS TO GRADUATE: 120

Examples of Political Theory & Constitutional Democracy Senior Seminars (MC 497)

Freedom, Justice & Constitutionalism - What do freedom and justice demand of a liberal democracy's constitution? What do we mean by freedom and social justice? Are their demands compatible or do they conflict? Can they be satisfied in the context of constitutional democracy, or is more required? The purpose of the seminar is to consider these and other questions related to freedom and justice in constitutional democracy through the lens of modern political and economic thought. The course readings provide a dialogue among political economists of the past 100 years who have informed and interacted with each other, from Frank Knight and James Buchanan to John Rawls and F.A. Hayek. We conclude with John Tomasi's effort to reconcile Rawls with Hayek.

The American Presidency: Becoming Commander-in-Chief - By beginning first with the phenomena as we currently experience it in the presidency of Barack Obama, we will try to keep the questions presented by his presidency in view throughout the course. This course is not intended primarily as a history course. Our examination of past presidents will aim, in the first place, to illustrate and elucidate the nature of the office itself. In examining several U.S. presidents, we will try to keep the following analytical questions in mind: What role did the American founders envision for the presidency? What role has it had throughout American history? Is there a "modern" presidency distinctly different than that which preceded it? Our examination and discussion of these more general questions will give us greater analytical leverage as we turn to the rest of the presidents we will study for the remainder of this course. In each case, we will examine the content of that transformation and what it means for the office of the presidency and American government more generally.

Contemporary Liberal and Social Democracy - During the past seven years, this senior seminar has focused on a relatively straight forward topic: a comparison of American liberal democracy and European social democracy. This fall the course examines the broad problems of contemporary liberal democracy. The main theme will remain broad problems of contemporary (American and European) democracy, but with an emphasis on Tocqueville's argument regarding the tendency in democracy to evolve towards "soft despotism." Students will look at both historical and theoretical approaches to these problems. The class will raise critical questions and draw some tentative conclusions regarding the quality of today's liberal and social democracy, forcing us to question whether we are headed toward a despotic state.

SOCIAL RELATIONS AND POLICY

The Social Relations and Policy major explores the domain of public issues that are especially affected by relations among groups. The major is explicitly historical and comparative, looking at Social Relations and Policy in the United States and internationally, over time. Courses focus on the sociology, history, and politics of intergroup relations, paying close attention to the interplay of such factors as class, race, ethnicity, sex/gender, religious belief and national identity. The program uses the study of Social Relations and Policy as a way to cultivate reasoning, methodological and analytical skills and the capacities for empathetic observation, normative judgment and effective problem solving.

The sophomore sequence provides the conceptual, methodological and substantive bases for upper division work by introducing students to classical and contemporary social theory and comparative social history, and to quantitative and qualitative methodologies. The junior level builds on these skills to assess, in depth, a set of social problems and policy solutions. A senior seminar provides an opportunity to synthesize course work and undertake original research. Students also select from a broad range of electives to develop their expertise and understanding including opportunities for more international and comparative work, greater political analysis, and deeper understanding of particular forms of Social Relations and Policy. A related area requirement is broadly constructed to shape the major in a way that is responsive to individual interests and academic purpose.

Substantively, courses in Social Relations and Policy take up issues such as social identity, inequality and mobility, wealth and poverty, assimilation and pluralism, prejudice and discrimination, intergroup conflict and cooperation, the problem of civil rights and the politics of equality. Students develop knowledge in such areas as immigration, race and ethnic relations, civil rights, family and children, housing and residential segregation, urban and metropolitan policy, schooling and educational policy, social security and social welfare policies. The graduates go into careers such as law, non-profit leadership, labor relations, human resources administration, teaching, educational administration, public lobbying, and much more.

Examples of Social Relations & Policy Senior Seminars (MC 498)

Immigration Policy: Historical and Contemporary Perspectives - Immigration policy is central to the U.S. polity. It shapes who we are and how we think of ourselves as a nation. This course links key issues in the history of U.S. immigration policy with current debates about unauthorized immigration, national security, and American identity. We will study how U.S. immigration policies have developed since 1875 through interlocking discourses and laws concerning race, gender, sexuality, class, health, and citizenship. We will also consider new developments in U.S. immigration enforcement and contemporary debates about immigration in the context of culture, economics, and the environment. Our readings will include primary materials such as laws, popular articles and photographs, as well as secondary works by historians, sociologists, political scientists, economists, anthropologists and legal scholars.

This course addresses immigration policy as a process that operates not only from the top-down but also from the bottom-up; a process that is shaped not only by politicians, but also by immigration officials, Americans, and immigrants themselves. Throughout the course we will pay attention to both contemporary and historical immigration policies, tracing changes and continuities. We will spend approximately half our time focusing on contemporary debates and half on historical issues.

Sex, Religion, and Public Policy - It is somewhat striking how often public policy debates over sexuality also involve the politics of religion, including debates over the relationship between religion and state. When we argue about sex, and/or gender, very frequently we also argue about religion. While the intertwining of the politics of sex and religion seems to have accelerated in recent times, there is a considerable history of such linkage in public policy debates. For instance, family policy has repeatedly involved debates that elevate or outlaw different religious views of marriage, including who may enter into marriage, and under what circumstances. Same-sex marriage laws—while certainly not only about religion—are arguably a new chapter in a long-running debate.

Marriage is just one example; there are many public policy debates involving clashes over matters sex and religion. For instance, the clergy sexual abuse crisis has in some countries led public officials to assert greater legal authority over internal church matters; in a particularly striking example, the aftermath of the crisis fundamentally changed the relationship between the Catholic Church, on the one hand, and Irish society and government, on the other. Assumptions about sex, gender, and religion can intersect in ways that look strange to outsiders: for instance, why does restricting Muslim women's wearing of headscarves in public appear to so many French to be not a restriction on women's civil liberties, but as an advancement of those liberties? What assumptions about religion, sex, and the role of public policy inform such perspectives?

In the contemporary debate over the Affordable Care Act (Obamacare), one of the provisions that has received the most attention has been the "contraceptive mandate." Some religious employers claim that participating in health insurance plans that include contraceptive coverage violates their First Amendment religious freedom rights. Relevant context here is that the Affordable Care Act was crafted in the first place in a way that avoided expanding insurance coverage of abortion services, as well. But we have seen some of these battles before: For instance, it has long been established that religion is not usually a valid excuse in the United States for employment discrimination on the basis of sex or race. Sometimes assumptions about the power of religion in shaping our political debates and policy choices are overblown. And so the seminar will also examine cases where religious influence on public policy is not as strong as many critics assume.

Middle Class Politics and Policy in the U.S. - This senior seminar examines the contributing factors to the social formation of the American middle class from the founding to the present, including the interaction of social agency, ideology, opportunity structures, conflict, domination, normative order, political economies, cultures, and social movements. In contemporary American society, middle class identities and life chances are in flux. This course charts the larger forces which are challenging and shaping traditional roles and identities of the middle class, creating new inequalities and entitlements, and forging new political agendas. We also explore the intersectionality of class, race, and gender. How does the Black Middle Class fare? How is class gendered? We look at U.S. policy and its role in shaping the Middle Class. As a five credit SRP capstone course, we spend 10 weeks reading about the historical formation of the US middle class. Meanwhile, students are engaged in completing an original research project using primary data on a topic of their choice that contributes to understanding about middle class formation for presentation at the end of the semester.

MUSLIM STUDIES MINOR

The minor in Muslim Studies is open to all undergraduate students at Michigan State University, and may be combined with an undergraduate major.

There are more than 1.5 billion Muslims around the world, the vast majority living outside the Middle East. The largest Muslim communities are in fact in Asia and Africa, with significant and growing diasporas in Europe and the United States. The Muslim Studies minor seeks to explore the diversity of these Muslim communities. It encourages students to acquire a solid background in the history, religion, and culture of Muslim peoples in general, while exploring in depth particular Muslim communities in Asia, Africa, Europe, and the Americas.

The minor provides students with the opportunity for sustained study of Muslim societies and Islam in a range of disciplines and topics. With the approval of the department that administer the student's degree program, courses that are used to satisfy the requirements of the minor may also be used to satisfy the requirements for the bachelor's degree. The student's program of study must be approved by the Muslim Studies coordinator prior to enrollment in any course.

Requirements for the minor in Muslim Studies

Students must complete the requirements specified below (16-32 credits):

1. Completion of second-year college-level competency in Arabic or another language appropriate for Muslim Studies such as Persian, Turkish, Urdu, Bahasa Indonesia, Malay, or Swahili. Students may petition the Muslim Studies minor coordinator for approval of an additional foreign language when it relates to a student's program of study. Students may also petition for a substitution for part or the entire language requirement, replacing the language credits with non-language courses from the course list below. An exception to the language requirement may be granted to students completing a relevant study abroad experience from an approved list of programs available from the Muslim Studies minor coordinator. Students with majors in the College of Social Science should consult with their academic adviser to discuss alternatives to fulfillment of the language requirement in the minor.
2. Five courses with Muslim studies or Islamic content selected from two different categories, with at least one from each category. Not more than one IAH or ISS course may count toward the five required courses. Students must contact the Muslim Studies minor coordinator for an updated list of approved courses prior to enrollment.

POLITICAL ECONOMY MINOR

The minor in Political Economy is open to all undergraduate students at Michigan State University, and may be combined with any undergraduate major.

The minor in Political Economy offers a challenging, interdisciplinary course of study in economic theory and policy. Political Economy approaches the study of public affairs by incorporating economic, political, social, and historical considerations in the analysis. The program aims to foster a critical understanding of economic forces and their relationship to issues of prosperity and social justice. In the tradition of classical political economy, the curriculum examines the interconnections between economic organization, social forces, economic power and government policy.

The Political Economy curriculum embraces contemporary economic analysis while recognizing a broader context of politics and society. Theory is taken seriously. Students confront conflicting theoretical paradigms in political economy, including their historical foundations and their contemporary extensions. Theory is also applied to significant real world problems confronting society and government. In order to further understand these issues, courses develop quantitative skills and empirical analysis that build on theoretical foundations. Finally, the program takes politics seriously. Discussions of policy address the origin and nature of struggles among interested parties and how their actions are constrained or promoted by institutional arrangements.

Political Economy combines theory, technical expertise, and the humanistic tradition of the liberal arts. The minor is an excellent preparation for careers in business, law, and government. It also enhances the theoretical foundations and empirical experience in economics now expected of entering students in graduate programs in business, economics, public administration, and labor and industrial relations.

SCIENCE, TECHNOLOGY, ENVIRONMENT AND PUBLIC POLICY MINOR

The minor in Science, Technology, Environment and Public Policy is open to all undergraduate students at Michigan State University and may be combined with any undergraduate major.

The Science, Technology, Environment and Public Policy Minor (STEPP) is a cross-collegiate endeavor bridging the strengths of James Madison College, Lyman Briggs College and the Department of Fisheries and Wildlife. STEPP will train you in public policy that relates to science, technological development, and environmental science to promote change, become social, political and scientific leaders, and formulate and implement public policy. Students can use STEPP to study public policy related to topics such as health care, biomedicine, the environment, space science, national security, bioethics, communications technology, sustainability, science and religion, public health, information technology, and science education.

The increasing complexity of scientific and technological issues challenges scientists and public policy makers alike. Solutions to these problems require interdisciplinary collaboration among technological, environmental, natural and social sciences, as well as the humanities. STEPP prepares future professionals to integrate these disciplines as policy-makers, policy analysts, or resource managers. It teaches students how to communicate with multiple audiences and become leaders in developing innovative science, technology, and environmental policies.

STEPP will allow interested students to pursue work in public policy as it relates to science, technology and the environment. This program 1) exposes students to the policy-making process at the local, state, national and international levels; 2) raises normative questions about issues like the role of scientists as experts, computers and privacy concerns, federal funding of science, genetic engineering, the role of the military in technological development, and issues in natural resources management; 3) examines historical trends and analyzes social relationships; 4) builds a strong understanding of scientific principles that can be used to formulate sound policy initiatives; and 5) facilitates links between policy-making and science, technology and the environment. Graduates of STEPP understand how policies are constructed at different levels of governance, and they possess the skills necessary to evaluate the merits of public policy that relates to issues of science, technology and the environment. STEPP produces professionals who are well prepared to synthesize information from multiple disciplines and integrate social and natural sciences in policy formulation and analysis. It also prepares students for graduate work in policy sciences, public health, environmental law, science and technology studies, and natural resource management.

¹ A student may petition the Coordinator of STEPP to allow for any class not on this list to be accepted in fulfillment of any of the five required categories. In these cases, the final decision is left to the Coordinator, and students should always seek approval before enrolling in the class.

² At least two of the six courses in the Public Policy, the Science Applications, or the History, Philosophy and Sociology of Science requirements must be taken outside for the student's major department.

EUROPEAN STUDIES MINOR

The minor in European Studies, which is administered by James Madison College, is available as an elective to students who are enrolled in bachelor's degree programs at Michigan State University. With the approval of the department and college that administer the student's degree program, the courses that are used to satisfy the requirements for the minor may also be used to satisfy the requirements for the bachelor's degree.

The minor in European Studies provides an opportunity for students to pursue a significant and coherent body of course work in the culture, history, politics, economics, and geography of Europe. Some of the courses in the minor focus on individual countries, while other courses are comparative and cross-national.

Students who elect the minor in European Studies are encouraged to complete courses that are related to Europe in partial fulfillment of the University Integrative Studies requirement.

Requirements for the Minor in European Studies

The student must meet the requirements specified below:

1. **Foreign Language Proficiency:** The student must demonstrate proficiency in a European language at a level equivalent to the completion of four semesters of study at the university level. The results of the MSU foreign language placement test will be considered in determining whether or not the student has fulfilled this requirement.
2. **European Studies Courses:** The student must complete a minimum of three courses totaling at least 12 credits selected from at least three of the following groups of courses:

- b. Overseas Study. A research paper completed while enrolled in a MSU overseas study program in Europe totaling at least 3 credits.
- c. Internship. A research paper on a topic related to Europe completed while enrolled in a field experience or internship course of at least 3 credits.
- d. Capstone Course. A research paper on a topic related to Europe that is completed while enrolled in a capstone course of at least 3 credits.

*If the course has a European Studies theme or focus.

EUROPEAN STUDIES MINOR

This is a checklist for students in the European Studies minor who began in European Studies Fall 2018 or after. It may help students visualize how the various parts of the curriculum fit together.

I. Foreign Language Proficiency: Must demonstrate proficiency in a European language at a level equivalent to the completion of four semesters of study at the university level. Results of the MSU foreign language placement test may determine if a student has fulfilled this requirement. A fourth semester course in a European foreign language will also complete this requirement.

ADDITIONAL PROGRAMS

MADISON HONORS PROGRAM

Any Madison student may elect to enter the College Honors Program after selecting his/her major. In order to be designated as having successfully completed the Honors Program, a student must meet the following requirements:

- Successful completion of three Honors Options in courses required in the “core” of the student’s major (i.e., in courses in the major with the designation MC, either required or electives). Successful completion = meeting all the specified requirements for the awarding of the honors option designation, including receipt of a 3.5 or better in each of the courses.
- Successful completion of one independent study (MC 399, 3-4 credits or MC 490H, 4 credits) in the student’s major during the junior year. Successful completion = 3.5 or better in the course.
- Successful completion of a senior honors thesis (MC 495H, 4 credits for each semester) and a successful public defense of that thesis. Successful completion = a 3.5 or better in each senior thesis course, or overall when the grade given in the first semester is deferred.

MSU HONORS COLLEGE

The MSU Honors College provides special programs of study for unusually talented undergraduates in all majors at MSU. The Honors College admits first-year students by invitation on the basis of nationally standardized test scores and outstanding high school achievement. Members of the Honors College are expected from the outset to pursue broader and more rigorous programs of study than other first-year students. Students not admitted into the Honors College for their first year may be invited to apply if they meet certain criteria including a specific grade point average after their first semester. Students with questions should see their advisor or an Honors College advisor. For a detailed account of Honors College benefits and requirements, students can consult MSU’s Academic Programs Catalog or visit honorscollege.msu.edu

HONORS OPTIONS

For many courses not offered with “Honors” sections, students may earn Honors credit by completing Honors-caliber study with special guidance from the professor. This is common in Madison, with many students working closely with faculty, and meeting in small, regular sessions for their Honors option Madison courses. Students must earn at least a 3.5 in the course to earn an Honors designation.

3+3 LEGAL EDUCATION ADMISSION PROGRAM (LEAP)

The Legal Education Admission Program allows select James Madison College students to complete their Bachelor of Arts degree and Law Degree in six years. This program requires careful planning in conjunction with the Assistant Dean in James Madison College. To be considered for admission, students must meet with the Assistant Dean at the end of their first year, complete a minimum of 91 MSU credits, take the LSAT at the end of the second year, and apply for admission to the MSU College of Law by February 15th of their third year. Learn more at law.msu.edu/admissions/3+3.html

BUSINESS COGNATE

Students may elect to complete a cognate in business. Cognates do not appear on transcripts upon graduation. The requirements for the cognate are met by completing:

MC 341 Politics and Markets

And four of the following courses (12 credits):

ACC 230 Survey of Accounting Concepts*

FI 320 Introduction to Finance

GBL 323 Introduction to Business Law

MGT 325 Management Skills and Processes

MKT 327 Introduction to Marketing

TEACHER CERTIFICATION

Students may apply to the College of Education for admission into the Teacher Education Program during their sophomore year for admission in their junior year. This is a limited enrollment major and is designed to be a “five-year program”, i.e. students complete a teaching major and minor simultaneously as they complete their Bachelor of Arts major in James Madison College. They then return, after their BA has been granted, for a year’s certification work including student teaching and graduate work in the College of Education courses. The resulting certification will be as a social studies teacher at the secondary level. In some instances, however, students may be certified at the elementary level. Students enrolled in a teaching certification program and fulfilling a student teaching requirement are only held to a minimum of 41 MC credits (rather than 51). They may also enroll for TE 101, TE 150, or CEP 240 to test their interests. Interested students should contact the JMC Assistant Dean.

All four Madison majors are available for teacher certification. Students who complete the requirements for their disciplinary major and the requirements for teacher certification are recommended for a teaching certificate in social studies. Persons with teacher certification in social studies are qualified to teach history, political science, geography, and economics.

Teacher Education Requirements for Madison majors:

- Field Experience (MC 400/MC 401) is replaced by student teaching
- Related area is replaced by TE, HST, and GEO courses
- All MC Majors are comprehensive majors. Teaching minors are not required.
- Students must also take: TE 101, TE 150, TE 302, TE 407 AND TE 408

LIFE OUTSIDE THE CLASSROOM

UNDERGRADUATE RESEARCH

At James Madison College, students are challenged to be critical thinkers, problem solvers, and change agents, both in the classroom and throughout their lives during and after college. Madison students engage in a rigorous academic curriculum and majors that broaden their perspectives on an array of issues critical to the world today. And for many, the Madison experience sparks intellectual curiosity, the desire to dig deeper by conducting undergraduate research. Students pursue their interests in a variety of ways. Students may engage in undergraduate research for academic credit as part of a senior honors thesis or by preparing to present their original research at an academic conference. The most common forms of UR at Madison are: Senior Research Conference, Research as part of a faculty-led project, Independent Study, and Professorial Assistantships. Please speak with your academic adviser to learn more about these opportunities. Another popular way for students to showcase their research is through participation in the University Undergraduate Research and Arts Forum. Every spring MSU brings together students, faculty and staff for this exciting event. Please visit their website at urca.msu.edu/uuraf.html. Another way to learn about undergraduate research opportunities is to visit the Venture website at venture.msu.edu. Venture is a database of undergraduate research, scholarship, and creative opportunities available at MSU.

MSU Scholars captures the research activities of MSU faculty (books, articles, etc.) as well as trending research topics on campus. Visit scholars.msu.edu/dashboard to learn more about the scholarship happening at MSU and to develop potential leads for research opportunities.

NATIONAL AND INTERNATIONAL SCHOLARSHIPS

Each year a number of James Madison College students apply for prestigious national and international awards, scholarships, and fellowships. Over the past forty years, Madison students have won numerous Rhodes, Marshall, Truman, National Science Foundation and Mitchell awards. Madison students have also served as Carnegie Junior Fellows and received Fulbright awards. Many of these major national and international scholarships and fellowships are sponsored by international organizations and government agencies. These prestigious award competitions are rigorous and require that students think critically about important public policy issues, but also their short-term and long-term career goals and life plans. Madison students are encouraged to ask their academic adviser or the Assistant Dean about the awards and scholarships. It is never too early to begin thinking about these scholarships. First-year students should discuss these with their advisers and professors. Madison College faculty members are a great resource for learning more about these scholarships and fellowships. More information about national and international scholarships and awards can be found at nifs.msu.edu.

CAREER SERVICES

James Madison College is part of MSU's Career Services Network, which serves students from their first year to graduation and beyond through a variety of career-focused programming and services.

The college's Career Consultant is available to students year-round for one-on-one advising appointments and career-focused programming meant to:

- Review the variety of resources available to every Spartan through the Career Services Network
- Explore career interests and options
- Help students strategize about ways to acquire career-related experience and/or pursue professional development opportunities throughout college
- Develop job search strategies
- Assist with professional document development (cover letters, resumes, LinkedIn profiles, etc.)
- Discuss interview strategies and/or feedback
- Review job offers
- Walk through the process of applying for graduate and/or law school

Students are able to schedule career advising appointments with JMC's career consultant online through Handshake.

LIFE AFTER MADISON: CAREERS AND GRADUATE PATHS

Madison graduates pursue a wide range of interesting career opportunities. Some focus on a direct application of their degree—including earning advanced degrees through graduate study or law school—while others opt for a more indirect application of their discipline, interwoven with other skills and interests. Regardless of their final destination, Madison students develop a strong set of transferable, discipline-crossing competencies that are highly sought after by employers and advanced degree programs alike. Explore relevant career resources based on career interest areas and identity/affinity groups. Each page features curated content to assist you in narrowing down choices. To learn more, visit careernetwork.msu.edu/channels/career-interest-groups/

Each year the university administers and publishes the Destination Survey, a thorough report that documents the post-graduate outcomes of all MSU students who have a received a bachelor's degree aimed at offering a snapshot of their progress as they transition out of college. JMC's annual Destination Survey results are online at careernetwork.msu.edu/outcomes/.

LIFE OUTSIDE THE CLASSROOM

DIVERSITY AND STUDENT ENGAGEMENT

The Office of Diversity Programming and Student Engagement aims to promote a socially inclusive environment that nurtures excellence through equal opportunity and respect for everyone in the college. The Office seeks to enhance student, faculty, and staff interaction, and sensitivity to dimensions of social inclusion such as race/ethnicity, nationality, gender, social class, sexual orientation, and ability.

What students are offered:

- Cultural and educational programs and events
- Student leadership opportunities
- First Year Mentoring
- Informational resources
- Safe space to share concerns or issues
- Volunteer and Student employment opportunities

FIRST YEAR MENTOR PROGRAM

The purpose of the First Year Mentor Program is to promote persistence, provide opportunities that encourage academic success, and foster a sense of belonging. The one-on-one model is designed to be student-centered and student-directed, allowing participants to easily blend their busy schedules with the requirements of the program.

The James Madison First Year Mentor Program strives to:

- Support First Year Students in their transition to James Madison and Michigan State University
- Encourage successful academic and personal development
- Promote student involvement
- Enrich the connections of Madison students to each other, the college, and the MSU campus

MADISON ACADEMIC DIVERSITY INITIATIVE (MADI)

The purpose of MADI (Madison Academic Diversity Initiative) is to support underrepresented students during their transition into James Madison College by providing a support network for the participating students to ensure their successful retention while focusing on creating a more diverse, equitable and inclusive environment.

MADI offers professional development opportunities, social gatherings, topic focused community dinners once per month with local alumni, faculty and the Deans, mid-term study tables, a community service project, leadership opportunities within the college and a Leadership Retreat; all FREE of charge to you! Space is limited for this amazing program!

COLLEGE INCLUSION COMMITTEE (CIC)

The College Inclusion Committee (CIC) consists of administrators, faculty, staff and students in James Madison College who are working to increase diversity and foster an inclusive environment. The committee serves as a point of contact regarding ideas, suggestions, and concerns related to inclusion and diversity.

Visit the [JMC Diversity & Inclusion](#) website to find more details about these programs

His research examines the contrast between ancient-medieval and modern thought with respect to the problem of political legitimacy as well as the relationship between piety and politics. His articles have appeared in *Arabic Sciences and Philosophy*, *Mélanges de l'Université Saint-Joseph*, *Interpretation: A Journal of Political Philosophy, Religious Studies and Theology*, and *The Encyclopedia of Islam and the Muslim World*. He is now completing a book entitled *Against the Politics of Forever: Ibn Khaldun and the Science of Culture*. The work is an interpretive analysis of Ibn Khaldun's science of culture as it is articulated in his *Kitab al-'Ibar* in general and its *Muqaddima* in particular.

FLAIM, AMANDA (Ph.D., Cornell University, Development Sociology) Assistant Professor. Professor Flaim studies problems and paradoxes in human rights policy, including statelessness and citizenship, human trafficking, and the global expansion of rights to education and birth registration. Her current research projects explore the risk of trafficking among Cambodian and Burmese men and boys into the Thai fishing industry, and the causes and consequences of statelessness in Thailand and Nepal. Professor Flaim has consulted for several NGOs and United Nations agencies on a number of projects, including designing and leading two of the largest country-level surveys of stateless populations conducted to date. Prior to arriving at James Madison College, she was a postdoctoral associate and Human Rights Fellow at Duke University, where she taught courses on human rights, citizenship, migration, and qualitative and mixed methods research for public policy students. In a new \$1M initiative supported by the Luce Foundation, Dr. Flaim is collaborating with fellow MSU/JMC faculty and students, as well as artists, activists, UNESCO, and leading faculty partners in Southeast Asia to interrogate and imagine inclusive ecological futures along the imperiled Mekong River and its tributaries. She holds a Master's degree in Comparative and International Education from Stanford University, and a Ph.D. in Development Sociology from Cornell University.

FORE, MELISSA (Ph.D., English, Michigan State University) Assistant Professor. Professor Fore's research engages African American literature, critical race theory, and cultural studies to query the ways in which laws and social prohibitions against interracial intimacy create moments of erotic spectacle. Her work explores how the concept of race is both legally and culturally constructed, the contexts within which it operates, and the ways cultural and artistic texts influence, echo, and ratify these prohibitions. Professor Fore teaches in the first year writing program and is a core faculty member of Michigan State University's Center for Gender in a Global Context.

FACULTY BIOGRAPHIES

GARNETT, SHERMAN W. (Ph.D., University of Michigan; Slavic Languages and Literature), Professor. Sherman W. Garnett is the former Dean of James Madison College, arriving in 1999. Under Dr. Garnett's leadership, Madison College has expanded its development and alumni activities, expanded career, advising, diversity, and events programming, and expanded the College by 15 faculty members and more than 200 students. The College has added programs in science policy, Muslim Studies, and Comparative Cultures and Politics and new faculty in environmental, energy, and health policy. Dr. Garnett directed MSU's special self-study on internationalization for the 2005 North Central Association re-accreditation of the university, a process MSU passed with flying colors and much praise for its vision of internationalization past, present, and future. Dr. Garnett continues to consult on national security issues, especially those relating to former USSR, weapons of mass destruction, and defense strategy and arms control. Since coming to MSU, he has been sought out by the National Security Council, the National Intelligence Council, the Foreign Service Institute, the State Department, and the National Defense University. He was one of the project directors of the East-West Institute's 2001 Bipartisan Task Force on US-Russian Relations. He has published widely on arms control, Russian national security, Ukraine and other states of the former USSR. He has lectured at leading universities and institutes in the United States and throughout the world. Dr. Garnett has published widely in such national and international publications as *Foreign Affairs*, *Foreign Policy*, *The Washington Quarterly*, *The Christian Science Monitor*, *The Washington Post*, *The Washington Times*, *The Detroit News*, *Nezavisimaya gazeta*, *Rzeczpospolita* and *IJSS Strategic Survey*. He is the author or co-author of *Keystone in the Arch: Ukraine in the New Political Geography of Central and Eastern Europe* (1997); *Limited Partnership: Russia-China Relations in a Changing Asia* (1998); *Getting it Wrong: Regional Cooperation and the Commonwealth of Independent States* (2000); and a *Trilateral Commission study*, *The New Central Asia: In Search of Stability* (2001). He is the editor or co-editor of *Belarus at the Crossroads* (2000) and *Rapprochement or Rivalry: Russia-China Relations in a Changing Asia* (2000). From 1994 to 1999, Dr. Garnett was a Senior Associate at the Carnegie Endowment for International Peace. At the Endowment, he specialized in the foreign and security policies of Russia, Ukraine and other states of the former USSR. From 1998 to 1999, he served as an adjunct faculty member at Georgetown University, teaching on security issues in the former USSR. He has taught regularly at Madison College, including courses on contemporary security issues, nuclear and other weapons of mass destruction, and issues in political theory and literature. From 1983 to 1994, Dr. Garnett worked in a variety of positions in the US Government, ending his service as the Deputy Assistant Secretary of Defense for Russia, Ukraine and Eurasia. During his nearly ten years in the Office of the Secretary of Defense, Dr. Garnett worked on a wide variety of security and arms control issues. He served as Director for the Offices of Russia, Ukraine and Eurasia (1992-1993) and European Security Negotiations (1989-1992). He was the Secretary of Defense's Personal Representative to Conference on Security and Cooperation in Europe Review Conference in Vienna and Negotiations on Conventional Armed Forces in Europe (1988-1989). He also worked on issues of chemical and biological weapons arms control as a staff member of the Directorate for Multilateral Negotiations (1984-1988). He was the Senior Representative of the Secretary of Defense to the 1986 Review Conference on the Biological and Toxin Weapons Convention, as well as a member of the US delegation to the Negotiations on a Comprehensive Chemical Weapons Ban in Geneva, US-Soviet Talks on Chemical Weapons Non-Proliferation, and special talks on Chemical Weapons Non-Proliferation among leading chemical producing states. Dr. Garnett entered government service in 1983. Upon leaving government service, he received the Defense Department medal for Distinguished Civilian Service. Dr. Garnett received his Ph.D. in Russian Literature from the University of Michigan in 1982. He has an MA in Russian and East European Studies from Yale University and a BA in Political Philosophy from James Madison College at Michigan State University. He is a member of the Council on Foreign Relations.

GOETT, JENNIFER A. (Ph.D., University of Texas at Austin; Social Anthropology). Jennifer Goett is Associate Professor of Comparative Cultures and Politics at Michigan State University. She is a cultural anthropologist, specializing in political and feminist anthropology. Her research interests include race, gender and feminist theory, social movements, human rights, violence and the state, and critical security studies in Latin America. She has published work on indigenous and Afrodescendant social movements for territorial recognition in Central America, particularly Nicaragua, and on state sexual violence, racialized policing, and infrastructure megaprojects. Goett is the author of *Black Autonomy: Race, Gender, and Afro-Nicaraguan Activism* (Stanford University Press 2016). The book examines the gendered strategies that Afrodescendant Kriol women and men use to assert autonomy over their bodies, labor, and spaces in the context of drug war militarization and state violence in Nicaragua. Her articles have appeared in *American Ethnologist*, *Journal of Latin American and Caribbean Anthropology*, *NACLA Report on the Americas*, *LASA Forum*, and other journals and edited volumes.

He is currently the Associate Dean of the Honors College.

POLICIES AND PROCEDURES

JMC POLICY ON ACADEMIC DISHONESTY

The faculty recognizes that it is the responsibility of the instructor to take appropriate action if an act of academic dishonesty is discovered. It is further understood that a student may appeal a judgment of academic dishonesty to the University Academic Integrity Hearing Board. **The Faculty Assembled recommend that in cases involving proven academic dishonesty, the student should receive as a minimum, a 0.0 in the course and that a record of the circumstances, sanctions, and any appeal, be placed in the student's confidential file.** The individual faculty member or the Dean may recommend further action, including dismissal from the University, to the College Hearing Board. If a second case of academic dishonesty should occur, the recommendation is that the faculty, through the Office of Academic Affairs, should seek the student's dismissal from the College and the University.

The Faculty Assembled declare it a violation of College standards to submit the same written work for more than one course without prior express consent of the instructor(s) involved. It should be understood that violation of this standard may result in sanctions being applied, and at the discretion of the instructor these sanctions may include those that are applied in cases of academic dishonesty. Any student assigned a penalty grade based on academic dishonesty is entitled to challenge the charge. Challenges may be referred to the University Academic Integrity Hearing Board. Students should consult the Academic Freedom Report.

CODE OF TEACHING RESPONSIBILITY

The University's Code of Teaching Responsibility is available on the MSU Office of the Registrar's website, under Academic Programs heading. It outlines the expectations of instructors and procedures by which students may handle complaints. We do not reprint the Code here, but affirm that the Madison faculty abides by it as all University faculty members are expected to.

JMC POLICY ON CREDIT/NO-CREDIT GRADING

The Credit/No-Credit system is intended to allow MSU students to study in areas outside their major field of study without jeopardizing their grade-point average. Students may opt to enroll for a class "CR/NC," but for credit to be granted in that course the student must perform at or above the 2.0 level. **Students must contact the Registrar in the first week of classes to be eligible for Credit/No Credit.** Grades on the "CR/NC" system are not included in computing the semester or cumulative grade-point average.

Integrative Studies requirements in the University are excluded from the Credit/No Credit system (they must be taken on the numerical grade scale). Each college is empowered to select the particular courses from the Credit/No Credit system.

For Madison students, all College and major required courses are **excluded** from the Credit/No Credit system. This includes micro and macro-economics, MC 111, 201-202 and all major requirements. **It also includes the courses used to fulfill the foreign language**

POLICIES AND PROCEDURES

requirement, but first year-level Russian, Japanese, Chinese, Arabic and African languages may be taken Credit/No Credit. For a detailed explanation of Credit/No Credit grading, see MSU's Academic Programs Catalog.

OFFICE OF THE OMBUDSPERSON

The Office of the University Ombudsperson is comprised of a full-time University Ombudsperson, a part-time Associate University Ombudsperson, as well as an Office Manager. The Office was established to assist students in resolving conflicts or disputes within the University. The Office also helps staff members, instructors, and administrators sort through university rules and regulations that might apply to specific student issues and concerns. In addition to helping members of the MSU community resolve disputes, The Office also identifies MSU policies that might need revision, and refers them to the appropriate academic governance committee.

Visit ombud.msu.edu for more information.

EQUAL OPPORTUNITY AND NON-DISCRIMINATION

Michigan State University is committed to the principles of equal opportunity, non-discrimination and affirmative action. University programs, activities and facilities are available to all without regard to race, color, gender, religion, national origin, political persuasion, sexual orientation, marital status, disability, height, weight, veteran status, age or familial status. The University is an Affirmative Action, Equal Opportunity Employer.

In carrying out this commitment, the University is guided by the policies adopted by the Board of Trustees and by federal and state laws and regulations that may apply to the University. The Office of Civil Rights and Title IX and Compliance supports the campus community in creating and maintaining a safe environment and a culture of respect through educating all campus community members regarding how to prevent, identify, appropriately respond to, and report discrimination, harassment, stalking, sexual assault, and relationship violence. For more details visit civilrights@msu.edu

MANDATORY REPORTING

Michigan State University employees are required to report relationship violence and sexual misconduct of which they become aware in their capacity as a university employee.

Unless identified as a confidential source, all university employees are obligated to promptly report incidents of sexual harassment, sexual violence, sexual misconduct, stalking, and relationship violence that:

- Are observed or learned about in their professional capacity
- Involve a member of the university community or
- Occurred at a university-sponsored event or on university property

Field Experience Office: During the sophomore and junior years, students should consult with the Field Experience Coordinator and explore more than 500 internship opportunities in the U.S. & around the world. For more information or to make an appointment please visit jmc.msu.edu/fieldexperience.

Career Services: James Madison has its own career consultant whose role is to assist students in exploring potential career paths, preparing for professional opportunities during and after college, and making connections to put their career plans in motion. Visit jmc.msu.edu/current-students/career/index.html to learn more.

JMC Writing Consultancy: Experienced peer consultants help with academic paper critique, resume writing, and general writing skills. In addition to one-on-one consulting, Madison hosts a variety of workshops and classroom presentations, such as “Reading a Complicated Text,” “Writing in the Major,” and “How to Peer Review,” to help Madisonians gain a better understanding of reading and writing in the social sciences. The Writing Consultancy is located in room 230 S. Case and their hours are posted on their website: jmc.msu.edu/wc.

Public Affairs Aides: Upper-level James Madison students who serve as peer resources to students in MC 201. Office hours will be announced in lectures and section meetings.

James Madison College Statement on Non-JMC Mutual Roommate Requests

1. James Madison College’s first priority is to assign all first-year JMC students to Case Hall.
2. Housing Assignments Office and James Madison College will honor mutual non-Madison roommate requests if space is available in Case Hall.
3. If space for the non-James Madison College roommate is not available in Case Hall then the non-James Madison College student will be assigned to another residence hall, and the roommate requests will not be honored.
4. For more information, please visit www.LiveOn.msu.edu
5. Room and roommate assignment notifications will be sent in early August by the Housing Assignments Office.
6. James Madison College staff does not have access to housing assignment information.

South Neighborhood Engagement Center

You may explore what South Neighborhood has to offer at liveon.msu.edu/south.

MSU Neighborhoods are designed to foster academic success, civic and social engagement, health and wellness, and intercultural development. The Engagement Center in each neighborhood is where students go to find assistance, inspiration, and opportunities. From everyday questions about college life and course assignments to more complex questions about international engagement and career planning, there's someone in the neighborhood who can help you find answers.

For more information or to address any questions or concerns, please email the engagement center at ecsouth@msu.edu
