

SCIENCE, TECHNOLOGY, ENVIRONMENT AND PUBLIC POLICY MINOR

The minor in Science, Technology, Environment and Public Policy is open to all undergraduate students at Michigan State University and may be combined with any undergraduate major.

The Science, Technology, Environment and Public Policy Minor (STEPP) is a cross-collegiate endeavor bridging the strengths of James Madison College, Lyman Briggs College and the Department of Fisheries and Wildlife. STEPP will train you in public policy that relates to science, technological development, and environmental science to promote change, become social, political and scientific leaders, and formulate and implement public policy. Students can use STEPP to study public policy related to topics such as health care, biomedicine, the environment, space science, national security, bioethics, communications technology, sustainability, science and religion, public health, information technology, and science education.

The increasing complexity of scientific and technological issues challenges scientists and public policy makers alike. Solutions to these problems require interdisciplinary collaboration among technological, environmental, natural and social sciences, as well as the humanities. STEPP prepares future professionals to integrate these disciplines as policy-makers, policy analysts, or resource managers. It teaches students how to communicate with multiple audiences and become leaders in developing innovative science, technology, and environmental policies.

STEPP will allow interested students to pursue work in public policy as it relates to science, technology and the environment. This program 1) exposes students to the policy-making process at the local, state, national and international levels; 2) raises normative questions about issues like the role of scientists as experts, computers and privacy concerns, federal funding of science, genetic engineering, the role of the military in technological development, and issues in natural resources management; 3) examines historical trends and analyzes social relationships; 4) builds a strong understanding of scientific principles that can be used to formulate sound policy initiatives; and 5) facilitates links between policy-making and science, technology and the environment. Graduates of STEPP understand how policies are constructed at different levels of governance, and they possess the skills necessary to evaluate the merits of public policy that relates to issues of science, technology and the environment. STEPP produces professionals who are well prepared to synthesize information from multiple disciplines and integrate social and natural sciences in policy formulation and analysis. It also prepares students for graduate work in policy sciences, public health, environmental law, science and technology studies, and natural resource management.

STEPP Minor:

1. Science, Technology, Environment and Public Policy

One of the following courses:

LB	181	Introduction to Science, Technology, the Environment and Public Policy	3 credits
MC	181	Introduction to Science, Technology, the Environment and Public Policy	3 credits
FW	181	Introduction to Science, Technology, the Environment and Public Policy	3 credits

2. Science Applications

Any two natural science courses. Classes must be at the 200-level or above, consist primarily of natural science and not be integrative studies course. Students should check with STEPP coordinator to ensure that the particular course they chose will adequately fill the category.

3. Public Policy. Any two of the following courses:

5. One of the following capstone courses:

MC	459	STEPP Capstone	3 credits
LB	459	STEPP Capstone	3 credits

Students interested in pursuing the Science, Technology, Environment and Public Policy Minor should contact the minor's coordinator and have the STEPP minor added to their record.

SCIENCE, TECHNOLOGY, ENVIRONMENT AND PUBLIC POLICY MINOR

This is a checklist for students in the Science, Technology, Environment and Public Policy minor who began in STEPP Fall of 2018 or later. Students should fulfill each of the following five requirements.¹

1. **Gateway Course** Any one of the following courses:

FW 181 _____ LB 181 _____ MC 181 _____

2. **Science Applications** Two courses:

Classes must be at the 200-level or above, consist primarily of natural science, and not be integrative studies courses. Students should check with the STEPP minor coordinator to ensure that the particular course they choose adequately fulfills this course.

3. **Public Policy.** Any two of the following courses:

ABM 400 _____	LB 321A _____
ABM 427 _____	LB 321B _____
ANR 250 _____	LB 322A _____
EC 310 _____	LB 322B _____
CSUS 464 _____	LB 326A _____
CSUS 465 _____	LB 326B _____
FOR 466 _____	LB 355 _____
FSC 421 _____	MC 348 _____
FW 439 _____	MC 361 _____
FW 445 _____	MC 363 _____
FW 450 _____	MC 364 _____
FW 481 _____	MC 380 _____
FW 491 _____	MC 445 _____
	MC 450 _____
	MC 469 _____

4. **History, Philosophy, & Sociology of Science.** Any two of the following courses:²

EPI 390 _____	MC 350 _____
FW 211 _____	MC 351 _____
HST 425 _____	PHL 344 _____
HST 483 _____	PHL 380 _____
LB 323A _____	CSUS 310 _____
LB 323B _____	SOC 368 _____
LB 324A _____	SOC 452 _____
LB 324B _____	
LB 325A _____	
LB 325B _____	
LB 327A _____	
LB 327B _____	
LB 425 _____	

5. **Capstone Course.** Any one of the following courses:

LB 459 _____ MC 459 _____

¹A student may petition the Coordinator of STEPP to allow for any class not on this list to be accepted in fulfillment of any of the five required categories. In these cases, the final decision is left to the Coordinator, and students should always seek approval before enrolling in the class.

²At least two of the six courses in the Public Policy, the Science Applications, or the History, Philosophy and Sociology of Science requirements must be taken outside for the student's major department.
