

2018 FALL SEMESTER INTERNSHIP OPPORTUNITY

*U.S. House of Representatives
7th Congressional District Office
Congressman Tim Walberg*

Congressman Tim Walberg's 7th District Office, located in Jackson, Michigan, has openings for the 2018 fall semester. These part-time, unpaid internships can be used for college credit. The weekly hours and starting/ending dates are flexible.

These internships offer a premier opportunity to serve people while simultaneously learning about how the Legislative Branch of our Federal government functions, and how the Executive Branch agencies relate to residents of the 7th Congressional District. You will gain invaluable experience with constituent services and the internal function of a Congressional office. District Office internships are an excellent choice for those who are political science, government, or social work majors; however, students with other college majors are also encouraged to apply.

District Office Interns may assist the Congressman's staff with legislative comment intake, federal agency casework, field work, research, correspondence, database management, telephone duties, event planning and management, mailings, and other special projects.

To apply, please submit a resume by email to Leeann Yamakawa at Leeann.Yamakawa@mail.house.gov, for more information please call (517)780-9075.
